Cyclofiltration

STIVENT INDUSTRIE® has developed an innovative product, the Cyclofiltration Unit.

Economical – Resistant – Reliable – Efficient

Designed for indoor installation and ideal for equipping an island of stationary machines generating dust.

Cyclofiltration combines centrifugal force with double-stage filtration. It is the solution for flows below 1600 m³/h and offers an ATEX compliant solution.

Its trump card? Cyclofiltration is particularly interesting when you cannot put an installation with ATEX products outdoors.

OPERATIONS

- > Dust
- > Chip-creating operations

POLLUTANTS

- > Wood
- > Cement
- > Resins
- > Dust
- > Miscellaneous chips (including ATEX risks)

OUR COMMITMENTS

- > **Efficient**, up to 99% of dust above 3 microns
- > **Economical**, less piping, low energy consumption, replacement of consumables optimized thanks to cycloning
- > **Compact**, measures 1.5m x 1m and 2.4m high
- > **Reliability**, product designed to last

STANDARDS

They are self-certified ATEX, for the use of hazardous materials. A unitary LCIE certification is possible on request.

SECTORS OF ACTIVITY

Publishing, communication and printing

Aeronautics & Space

Automotive & Transportation

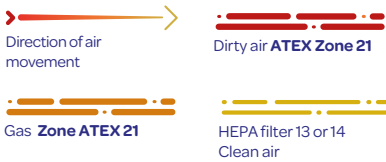

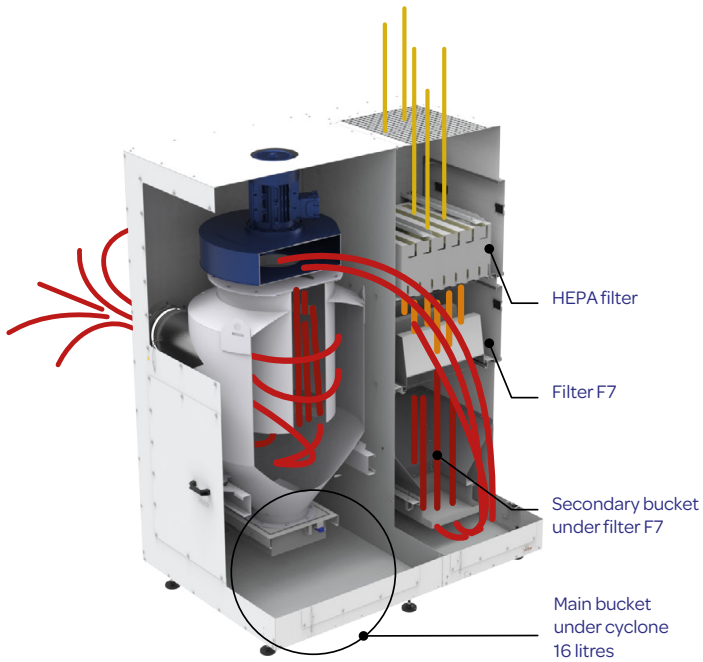

Wood trades

Metallurgy

AIR ROUTING AND TREATMENT

Cyclo 600

Cyclo 900

Description	Cyclo 600	Cyclo 900
Dimensions in mm (D x W x H) overall	1500 x 1000 x 2400	1300 x 1800 x 2400
Weight in kg (excluding options)	600	800
Maximum flow rate in m³/h	1600	3000
Cyclone	600	900
Transport speed (depends on pollutant)	Between 18 et 25	Between 18 et 25
Several fans and suction powers available to ensure performance in line with your needs.		
Warranty 1 year square parts and labour excluding consumables		

LOOKING FOR A COMPLEMENTARY PRODUCT?

Do you need to process one to several machines in a small workshop?

Filter cabinet

STIVENT INDUSTRIE®, EXPERT IN AIR TREATMENT SOLUTIONS. Since 1962, STIVENT INDUSTRIE® has specialised in the design, manufacture and installation of equipment for air treatment and industrial dust removal.

STIVENT INDUSTRIE® offers complete, tailor-made solutions to improve working conditions for operators, ensure the safety of equipment and workers, and protect the environment.
